

Committee Members:

Ken Hecker, Gary Levy, Rick Whitaker, Larry Eide, Gene Carr, Harry Yasako

Present:

Ken Hecker, Gary Levy, Rick Whitaker, Larry Eide, Gene Carr
Ken Hoffer, Terry Sullivan, Ueli Nussbaum

Meeting Called to order: 7Pm

Minutes from may 7th were reviewed and approved.

Carp Update:

New fish have been in the lakes and golf ponds since April. Some sightings, so, so far, so good.

Chemical Applications Update:

2nd weekly treatment has been done.

Given the amount of algae present, an algaecide needs to be done. There was some improvement after the last rain fall, so with more "fresh" water, less algae....with less "fresh" water, we will experience more.....

Lake/Pond Conditions:

Rick took lake temperatures this week, with average water temp at 73degrees in Thunderbird and 69/70 degrees in Kwan

The last readings on May 7th the temp was 63-65 degrees

We have seen "early" algae blooms, so treatment will be required

Aeration Compressors:

No issues at this time

Current life is scheduled for replacement in 2016

Other Lake Business:

With the new drainage in Coquitlan road, we should see better quality runoff into Thunderbird lake

Still short one member on the Lakes Committee

When dealing with vendors, it was suggested that we require more specific vendor invoicing (Aquatechnex)

Confirmation of next meeting: August 6th
