

Road & Drainage minutes for August 14th 2014.

Members present: Bill Forbes, Cliff Mallory.

Prospective Members: Jim Cook.

Advisors: Sandi Hilborn, Jim Lockie.

Staff: Steve Freitas, Ken Hoffer.

Discussion of the latest projects completed. The pipe fix on Nootka worked well; in fact it's hard to see there was ever an issue. The new culvert on Cowichan went well also, it was recommended the lot owner put a reflector so residents are aware of the ditch is still open on the next lot.

Motion made and passed that Jim Cook be accepted as a new member.

The project at Nakat and Quinault had been started, but needed to stop because locates were only done on one street side. Locates were called again to mark the entire project by staff.

New culvert project is being applied for on at 8244 Quinault the committee will be asked to sign off on the plan when it is ready.

Meeting adjourned at 10.20am
