

Road & drainage minutes from July 14th 2016

Present were; Ken Davidson, Bill Forbes, Jim Cook, Terry Sullivan, Bobby Hoffer, and Steve Freitas.

Meeting was called to order @ 10:00 am

Status of installing culvert pie connections: 25 have been done so far by the committee members; this project was started on May 17th of 2016. There is one left on Skeena Way, there have been many compliments from members in the area. The office has received many calls of homeowners wanting to fill in there ditches from seeing all the work done.

There have been 3 culverts replaced that run under BBVCC roads so far they have gone well. Replacement was started on July 5th 2016, with the addition of the new track hoe compactor the projects have been completed faster.

With more homeowners wanting to fill their ditches, some are asking for the committees help with free labor. The operation manager will continue ask the committee to look at each project to see if they are willing to assist. The homeowner will be encouraged to help with physical part of the install if possible.

Patrick from Huizinga Paving was here at 7.30am on June 14th, he will be getting back to the village for a quote on repaving the areas where culverts have been replaced under the street as well as the 2016 crack sealing project.

More supplies have been ordered for the few culverts projects

Meeting adjourned at 10.55 am

Next meeting scheduled for August 9th 2016.
