

Roads & drainage meeting June 9<sup>th</sup> 2016

Present were: Terry Sullivan, Ken Davidson, Jim Cook, Jerry Royal, Bobby Hoffer, and Steve Freitas.

Meeting called to order @ 10:00 am

The main discussion was the culvert replacement priority of this year. Locates have been ordered so maintenance can assess what equipment will be needed. I & I will be available around July 5<sup>th</sup> for assistance with the digging in areas that have a lot of utilities present. Steve Freitas will put a list together for the ACC of the 6 culverts that are targeted for replacement.

Ken Davidson will be the new contact for ACC projects that involve drainage and he will be signing off on them.

The committee asked if it was possible to have their own cordless saw for pipe cutting. Bobby said the old maintenance one could be rebuilt, could be used by the committee during the work season, and then placed back in the shop for the off season.

The cleaning of the Nootka Loop Drainage is scheduled for August; this should assist some of the residents with the storm surge issues that have happened in the winter months.

Rick Jones asked if he could have some refresher training on the track hoe that was scheduled for Friday June 10<sup>th</sup> @ 9:00 am

Meeting ended @ 10:35am

Respectfully submitted by Steve Freitas
